EXPERIENCE

Assistant Manager, Data Scientist

Aditya Birla Management Corporation

📅 Jan 2025 – Present   📍 Bengaluru, Karnataka

- Worked closely with senior business leaders to evaluate technology-led initiatives, building intuition around ROI, scalability, and execution risk relevant to investment diligence
- Led analytics and decision-support initiatives across multiple problem spaces, gaining exposure to how product strategy, data quality, and operating constraints impact outcomes
- Designed forecasting, simulation, and scenario-analysis frameworks to assess trade-offs and second-order effects of strategic decisions
- Partnered with cross-functional teams to translate analytical insights into execution, developing a practical understanding of what differentiates ideas that ship from those that stall

Business Analyst Intern

Fractal Analytics

📅 May 2024 – Jul 2024   📍 Bengaluru, Karnataka

- Worked with high-growth technology clients on go-to-market analytics, customer segmentation, and performance measurement
- Analyzed growth levers, conversion funnels, and cohort behavior to inform strategic decisions
- Developed executive-ready insights and case studies used to support investment, expansion, and positioning decisions

Quant Analyst Intern

Subhkam Ventures

📅 Jun 2023 – Jul 2023   📍 Mumbai, Maharashtra

- Conducted quantitative analysis on public market data to identify signals, risks, and opportunities, building disciplined decision frameworks under uncertainty
- Evaluated performance using benchmark and risk-adjusted metrics, strengthening capital allocation judgment
- Gained exposure to market structure, incentives, and behavioral dynamics relevant to early-stage company evaluation

SKILLS

Optimization   A/B Testing

Experiment Design

Market & Competitive Landscape Evaluation
